Reliance Wringer,

Have had unusual opportunities of procuring precisely what is wanted, and of producing a product unequalled. They have brought out an improved model, called "PROVIDENCE."

"PROVIDENCE" is an improvement over all other Wringers. It will wring the most sticky laundry.

IT WRINGS FASTER THAN D. & D. WE consider the Providence superior to all others for the following reasons: 1st. The ROLLERS, of iron and steel, and of quality of White Rubber, are all secured to their shafts in the most permanent manner, by the Monitor Process, making the Roller the best in the world.

2d. The PATENT METAL JOURNAL CASINGS, prevent any wear upon the journals. The wooden journals in which the iron shafts of other machines are worn upon the journals, and the efficiency of the Wringer is thereby greatly reduced.

3d. The DOUBLE SPIRAL COUGS used on this wringer, give the utmost ease and steadiness in working, while the double spiral prevents them from bottoming or being thrown out of the work, or through either single or double gear fittings, as is done.

4th. The ADJUSTABLE CURVED CLAMP readily makes the Machine to take of any size or thickness, making a perfect fastening. No wooden pegs or rubber strips are used.

5th. SIMPLICITY, STEADINESS and BEAUTY are combined in this Machine. PROVIDENCE TOOL CO. 11 Warren St., N. York. PROVIDENCE, R. I.
